

we saw any situation worse in -- Bushnell  
to lead off #4

JB - This post is unlikely to get any close  
to Sov. ... submit protection

They are playing short-term games --  
only taking a general view from pol. problems --

Space in UN for better use -

Originally wanted to keep Montanari from  
using Sov. Cuban against them - This has  
developed into cooperative work trade-off

In coming months Ag. will have had  
time taking any positive action due to Viable  
restraint -- at least until decision in

Sept -- can easily want given -- in case  
face major decision -

where consideration is main issue - Ag.  
from consideration -- They might do more  
within this.

Main short-term consideration is pain  
where they would be in sympathy

LH - Is HR better now?

JD - Major improvement -- but some skills  
system remains in place

They have talked most they would still  
be prisoners now less -

LH - Team policies (Mott) will continue through  
transition to new part.

We have a great team. Future that we  
should working

Ho - I think deal has been done - they will  
follow some policy next year - floor of 4mm, no  
ceiling - and limit

Qp1 - Open

Q2 - What is the issue? Could have a  
individual issues?

Will what change be circulated?

Ho - Once they policy is clear (<  
(and follow) other countries

and support in -

We - Agree. All involved agree if  
Gov. say is good.

We have to find a way to announce  
a l.g. policy success.

DA Do we want to take some more  
against City? Or let it go?

He Former. He was given a hard time

GC We have no know. Will make  
station work.

DA The City doesn't care about us. City etc.

We Real question is one of tone -  
paper also should go to LA to work  
out implementation of tone.

The City want to do anything to  
control our press.

GC Don't blame Penn. We're facing  
Don to Son.

He They are sensitive to our concern or  
you - Matt said he would face us if  
all else =

LA OPEC insurance would be impacted

He There's a UX forum

SK Not clear what option are - Son.  
are interested in more cap. - but a minimal  
activity to start -

Our role < Arg. - don't want to expand  
unless they move on that. But - FSS (Hess) -

Should we continue on marginal activities  
within law? Heavy water is key -

Do we want to supply things that could be  
replaced by a future NW program

JB No basis of what we are supplying for  
their research paper - - do we want to  
break our supply? - (perhaps turn them  
to Sons) - our hope is for progress with  
new Arg. activity next year -

Issue: Should we hold directly now &  
not do "minor" things

SK depends on item included

Clay NP plan is bankrupt - do all  
we can under the law

SK Transition? Perhaps what they want  
is no problem. Look at specifics

W NPP hasn't been abandoned

Clay Effectiveness. Some are ready to jump  
in. For cell we can

~~ask them to~~

JB Very few licenses pending

W Back to general topic - Lib

more to visible option

but useful as funds in HPL which

is wrong) - should be to speed H.K.  
bill however - politically unwise

Option B needs fine tuning from LG -  
what can we do in coming months to improve  
our relationship -

Perhaps in 1991 we could have a  
meeting on timing at least -

LA Encouraged by your survey. Trends important.  
Open on Option B.

LA Progress to improve relations needed -  
Options are too static. Obj:

1) Maintain a working relationship & build on it

2) Co-operation - we want to get the  
contract & should have

3) Build change in legal work

4) Major ops into coming - will be  
signal to them. Relate to other policy issues

we Summary -- No steel - the ke

After

1) The HSE papers to work found  
improvement

2) Over next 6 months, will be continued

by the steel paper

3) The whether we need to react or for  
steel paper

4) If HSE continues to improve -- feel

improvement in the steel paper

is to work out the HSE

Need to be in BRC (less military)  
Get up and if no papers been made -  
BUI

No reason to improve its dramatically  
immediately due to their action to us

Should make clear we are used  
put up pieces - were administered - could  
get for a while

Take opportunity of our job

1) Stick it to this part but

2) Stick to work & then pay

If we mean to improve we are used to  
work -

Get John C should be paid (less 11.4) -

do all in our unit - restore with us

Reg. - doing them to boss. - Cars are on  
great plan - small things are interesting

Party Spirit Rd - we were here

appears to mean contact - would like to  
 pursue -- e.g. further intake (under  
 review by SpA) -- he is prepared to write

JB - Mixed signals - he would like  
a written report of visit - question is one of  
timing - it will be involved in any politics -

Do we want to reveal their specific behavior?

He be careful about assuming that they will do what possible in pay. Given the way he has some unpaid flexibility still. We should take up with a firm. Then trust they arrange.

JB. Amusement and fall in woods - Spent  
am on boat

~~Don~~ Don But we put it hard on them - will we let them beat it?

the body she is carrying either

Paulo Galvani - he was instrumental in organizing -

SK Should maintain nuclear rel. - but we  
shouldn't ~~be~~ put to trial if less if it undercuts  
efforts in NP.
